MONEY, STOCKS AND GRAIN

THEO. P. HAUGHEY, Prest. E. E. REXPORD, Cashier.

Heavy Depression of Wall-Street Shares that Came with a Vengeance.

Declines Extended Throughout the List, with a Climax in Edison That Fell 814 Per Cent. -Indianapolis Grain A-Begging.

THE BOND MARKET.

Railway Issues Are Heavy Again on Sales Yesterday of \$871,000.

At New York, yesterday, money on cal was firmer at 2@5 per cent., the last loan being made at 24 per cent., closing offered at 24 per cent.

Prime mercantile paper, 6@8 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.86 4 @4.864 for sixty days and \$4.89@4.89% for demand.

The dealings at the New York Stock Exchange yesterday were characterized by marked depression. Lower prices from London at the opening, the strained condition of banking and commercial credits at the West and the further exports of gold added to the boldness of those operating for a decline. Wherever it was supposed that long stock could be reached an attack was made, and not without result. The heaviest losses were 84 in Edison Illuminating, 5 in Baltimore & Ohio and Norfolk & Western preferred, 4 in Chicago Gas and Manhattan, 34 in Louisville & Nashville, 2% in General Electric and 2 in Rock Island and Lackawanna. The remainder of the list yielded 1/2 to 11/2 per cent. Distilling and Cattle Feeding was comparatively firm. After delivery hour Edison Illuminating recovered to 105 bid, and there was a recovery of 1% in Louis-ville & Nashville and 1/2 to 1 per cent. in other stocks. The rally was due chiefly to purchases to cover short contracts. The

market closed steady in tone. Railway bonds were heavy. The sales were \$871,000. Ohio & Mississippi consols even declined 2, to 1081/2, and Wabash debenture, Series B, 2, to 25. Government bonds were easy. State bonds were dull. Closing quotations were:

The total clearings in the United States amounted to \$599.124,352, being a decrease of 12 per cent. Total outside of New York was \$409.913.790, a decrease of 5.9 per cent.

LOCAL GRAIN AND PRODUCE.

A Busy Day on the Wholesale Streets and Prices Ruling Steady.

The morning trains, yesterday, brought in a good many buyers and mail orders were numerous, resulting in making it a busy day on the wholesale streets. On Commission row produce bandlers were quite busy. New and old potatoes are now so near each other that the former are meeting with the best sale. Oranges are less plenty and firmer. Lemons are in good request and very firm at quotations. Green apples are practically off the market. Cubbages are in abundant supply and weak quotations. Eggs are firm, poultry and butter coming in freely, prices easing off. Trade with the grocers is unusually brisk and has been for some weeks, and the dry goods houses are doing more. A part of given more life to trade.

Receipts of grain are large. Wheat is very dull, no one seeming disposed to bid on this cereal. Corn and oats are in fair request, but the tenor of the bidding shows that dealers and shippers are not anxious to purchase on any extensive scale. Track bids on 'Change yesterday were as follows:
Wheat—No. 2 red, 63e; No. 3 red, 55e;
No. 4 red, 54e; rejected, 45@50e; unmerchantable, 25@40e; wagon wheat, 63e. DUN & CO.'S WEEKLY REVIEW

Nothing in the Present Business Situation to Justify Encouragement.

Heavy Depression in All Lines of Trade, Iron and Stocks Being the Greatest Sufferers. with Money Markets Nervous.

NEW YORK, June 2 .- R. G. Dun & Co.'s weekly review of trade says: More disheartening conditions have prevailed during the past week, and those who saw the beginning of permanent recovery in a better tone a week ago are disappointed. The money warkets have been closer, especially in the interior, in manufacturing and in trade, and are more affected than before. Gold has gone out again in large amounts, exports for this week being about \$5,000,000. and the treasury gold reserve has been drawn down to about \$90,000,000. In nearly all departments of trade uncertainty about May this business was disappointing, but the future has a depressing influence, the firmer tone to the dry goods market has which is now clearly perceived in decrease of new business, While most man-ufacturing works are yet employed on full orders, as these run out the number of works closed increases Philadelphia reports much disturbance in iron on account of a change in railway rates, with much complaint of collections in all branches. Trade at Cleveland is fairly good, though money is close. The iron trade at Pittsburg is less encouraging. pig being weaker and finished fron very low in price, with weaker tendency. At Cincinnati general trade shows little improvement, and collections are slow. At Indianapolis collections are unsatisfactory. At Detroit money is close, vessel rates low and trade, though fair in volume, is at very low prices. Chicago reports increased receipts, in sheep 30 per cent., in corn 36, oats 40 and wheat 175 per cent., but decrease in all other articles, especially in animal products. Wheat is quoted so below the lowest price for thirty years. General trade was satisfactory, and collections improving. Trade is fair at St. Paul. though collections are slow and money close. St. Louis reports cotton and corn moving, but loans are curtailed to the minimum, and there is no market for local securities save at buyers' prices. At Kansas City trade is fairly satisfactory, but money close. Omans reports good trade, with collections slow, and at Knoxville not improved. Atlanta reports fair trade and slow collections. Augusta has slight improvement in trade, but light money and slow collections. Columbus reports collections less favorable and money very tight, and at Macon trade is quiet, collections slow and money close. Mobile finds trade reasonably good, with larger shipments of vegetables and money easy. At New Orleans business is only fair, but crop prospects, though backward, are promising. Stocks are nearly \$2 per share lower than a week ago. Wheat has declined 14c, corn 24c and oats 14c, with moderate transac-

Speculative markets have been sinking. tions, few caring to buy wheat with enormous stocks in sight. Lard and hogs are lower, and cotton has declined 1/16c, with moderate sales, though receipts are small The market for tin was overloaded, and fell 4c. Coffee is weaker, with reported sales below 11c. Lead is higher, and coal more active. Uncertainty about freights, labor, crops and finances makes the iron trade gloomy. Prospect of trouble with the Amalgamated Association sustains the present demand for finished products. Structural mills are employed, but at prices which return scanty profits. In the shoe trade shipments are still large. In mens' woolens commission merchants are in trouble with clothiers, who throw back goods ordered apparently to get them at

goods. Exports of products still fall below last year's in value. There is much withdrawal of money loaned in this country on foreign account. The fact that \$5,000,000 of such loans mature within the next week leads to the expectation of further exports of

lower prices, and little is doing in spring

Failures during the past week have been 238 in the United States, against 175 last year, and 21 in Canada, against 32 last year. But two of the United States failures were for more than \$1,000,000 each, four others were of firms rated at over \$200,000 each, and forty more of firms rating over \$5,000 each. Last week the total number of fail-

DEPRECIATED \$25,000,000

Extent of the Loss in Values of Chicago Stocks During the Past Month.

This Fact Given as One Keason Wheat Has Tumbled Until Yesterday 66c Was Reached for June, the Lowest Ever Known There.

TRADING AT CHICAGO,

During the Grain Depression Pork I Strong, Gaining 30c Yesterday. CHICAGO, June 2.-There was a new low record made in wheat at Chicago to-day. There was unwonted excitement, besides a small failure in the trade, great nervousness over the slaughter of stocks, both in Chicago and New York, and rumors of Western bank troubles. Everything was magnified ten times. Bull news went unheeded. The panicky bear pit prevailed to such an extent that it is not at all improbable the selling was much overdone. On steady cables, reports of decreased acreage in Minnesota and the Dakotas, receipts of only seventy-live cars here and other such influences, the wheat market started with a rebound of %c from last night. July sold at 69% c and September 73% c. Then began the selling and the tumbling. The decline had already wiped out the early advance when Manager Powell, of the clearing house, posted the small firm of Kellogg & Forsythe as not meeting their debt balance. These young fellows had been in business only a few months, and, it is said, had been plunging on the bull side of wheat. Their trades were small, but scattered, so that many houses had stull to sell out for their account. The fear that other small failures might follow made the trade unduly excited. The dropping out of busipees of a little concern with perhaps \$10,-000 capital would not at any other time have caused a ripple. The familiar situation seemed to put every one on edge, and the decline went on until June touched 66c, a point never before reached in this market, July 66 se and September 71 2c. There was less than 'ac recovery at the close. Cudshy and Wright led the selling from the start, and both freely predicted 65c for July. Wright was unquestionably selling short, but the crowd is not so sure about Cudahy. The general opinion is that he has been long for a considerable time. and is now throwing over his holdings at a

loss. One of the weakest factors in the situation was the sharp break in local securities on the Chicago Stock Exchange. Liquidation has been going on for the past sixty days, but it was generally believed that the settlement of many trades would end the depression. The Plankington failure seemingly impared returning confidence, and again started stocks on the down grade. To-day's decline averaged \$13 a Match stock. The aggregate depreciation in local stocks since May 2 is very close to \$25,000,000. Since that time West Chicago has declined \$56 a share; North Chicago, \$68; City Railway, \$30; Bisenit, \$20; Straw-board, \$21; Diamond Match, \$23; Canal and Dock. \$11: Milwaukee Brewing, common, \$12; preferred, \$5; Chicago Brewing, common, \$13; preferred, \$6; Street Car Company. \$3. The loss on West Chicago is over \$6,000,000, and on North Chicago \$3,-

Corn.lander a fair demand, sold up a fraction and held steady for a while at the advance. The decline in wheat, however, was too much of a factor, and it was not long before offerings were greatly increased, under which the price sold off 34 @ 3se, but at the decline the inquiry improved and 4@ se rally occured, and the final figures showed a % @ 40 loss. Oats at near the opening were at about

the highest prices of the day, while the closing was at the lowest, with a net decline of 4 @ sc. Provisions were stagnant. Counselman went to \$22 to get 2,500 barrels of September pork and the price closed at that fancy

figure. Compared with last night pork is nominally 30c higher; lard, .124c lower and ribs, .10c lower. Freights were in good demand, but offerings of boats ready to load were light. Rates held firm at 1%c for wheat and 1%c for corn, to Buffalo, and 3c for corn to Kingston. Estimated receipts for to-morrow are: Wheat, 76 cars; corn, 915 cars;

oate, 345 cars; hogs, 6,000. The leading futures ranged as follows: Op'ning Highest, Lowest, Closing Wheat-June. July..... 73 401₈ 401₂ 413₄ Carn-June ...
